

**In the Claims:**

Please amend the claims as follows, substituting any amended claim(s) for the corresponding pending claim(s):

Claims 1-24 (Canceled)

1 25. (Previously Presented) A mobile station of a calling party, comprising:  
2 communication circuitry for processing wireless communication signals;  
3 audio processing circuitry for converting between sound and audio signal and for receiving sound  
4 from a microphone and for producing sound to a speaker;  
5 logic to prompt the mobile station to generate signaling to a communication network element to  
6 complete call setup including completing connection of a voice channel and further to mute the microphone  
7 even though the voice channel is connected;  
8 logic to prompt the mobile station to prompt a called party to take the call after a specified period of  
9 time as a reminder that a calling party is on hold; and  
10 logic circuitry for prompting the mobile station to transmit a request to a mobile switching center to  
11 further prompt an interactive voice response system to play a specified message to the calling party to advise  
12 the calling party that it is being placed on hold and that the called party will be taking the call shortly, wherein  
13 the mobile station only transmits the request if the called party depressed a select button or key while being  
14 alerted that a call was coming in for the called party.

1 26. (Previously presented) The mobile station of claim 25 wherein the logic circuitry also is for  
2 prompting the mobile station to transmit an indication that the called party is ready to take the call.

1 27. (Previously presented) The mobile station of claim 25 wherein the select button is a keypad number  
2 button.

1 28. (Previously Presented) A mobile station of a calling party, comprising:  
2 communication circuitry for processing wireless communication signals;  
3 audio processing circuitry for converting between sound and audio signal and for receiving sound  
4 from a microphone and for producing sound to a speaker;  
5 logic to prompt the mobile station to prompt a called party to take the call after a specified period of  
6 time has elapsed as a reminder that a calling party is on hold; and  
7 logic circuitry for prompting the mobile station to complete call connection including the voice  
8 channel and further to mute the microphone until the called party takes the call to prevent audio transmission  
9 over the voice channel until the called party takes the call and to transmit a message to the calling party to  
10 advise the calling party that the called party will be taking the call shortly.

1 29. (Previously presented) The mobile station of claim 28 wherein the message is only transmitted if the  
2 called party depressed a select button or key while being alerted that a call was coming in for the called party.

1 30. (Previously presented) The mobile station of claim 29 wherein the microphone is muted until the  
2 called party depresses a select key indicating that he is ready to take the call.

1 31. (Previously presented) The mobile station of claim 29 wherein the speaker is muted until the called  
2 party depresses a select key indicating that he is ready to take the call.

1 32. (Currently amended) A method for connecting a call placed by a calling party to a called party  
2 having a multi-line capable phone, comprising:  
3 receiving an indication that a call is to be setup with the called party;  
4 receiving an indication of the called party number;  
5 determining a serving node for the called party;  
6 transmitting call set up signals to the serving node;  
7 connecting a first call to the called party;  
8 receiving an indication from the called party to place the calling party on hold;  
9 responding to a called party indication by triggering an IVR to play a select message to the calling  
10 party to advise the calling party that the called party will be taking the call shortly; and  
11 when a specified period of time has elapsed, providing, on behalf of the calling party, a reminder  
12 to the called party that the ~~second call~~ first call is still on hold.

Claims 33-34. (Canceled)
